

AI SERVICES FOR PUBLIC SECTOR & CORPORATE ENTERPRISES

OUR CORE SERVICES

**CYBERSECURITY &
MANAGED SECURITY**

**DIGITAL
TRANSFORMATION**

**ENTERPRISE INFORMATION
MANAGEMENT**

**AI & DATA
SOLUTIONS**

**DIGITIZATION &
SECURE DESTRUCTION**

**ENTERPRISE
INTEGRATED SECURITY**

AI CAPABILITIES OVERVIEW

AI STRATEGY & CONSULTING
Roadmap development and readiness assessment for AI integration.

CUSTOM LLM DEVELOPMENT
Tailored large language models trained on secure internal data.

RAG SOLUTIONS
Retrieval-Augmented Generation for highly accurate data querying.

AI AGENTS & AUTOMATION
Intelligent workflows that automate complex operational tasks.

DATA ENGINEERING
Scalable infrastructure to support advanced AI deployments.

AI GOVERNANCE & SECURITY
Ensuring ethical, compliant, and secure AI usage across systems.

AI USE CASES

Transforming government and enterprise operations through secure, intelligent, and purpose-built AI solutions.

GSG TECHLABS – UNIFIED AI SECURE OPERATION CENTER

Centralized AI governance, security monitoring, policy management, and operational oversight across enterprise AI platforms, agents, and applications.

CITIZEN SERVICES AUTOMATION

Deliver 24/7 multilingual citizen assistance through intelligent chatbots, voice assistants, and automated service requests.

AI KNOWLEDGE ASSISTANT

Enable secure, conversational access to enterprise knowledge, policies, procedures, and documents with AI-powered search and retrieval.

AGENTIC DOCUMENT INTELLIGENCE

Automate document classification, information extraction, validation, and complex workflows using intelligent AI agents.

AGENTIC HELPDESK, NOC & SOC

Deliver efficient, 24x7x365 U.S.-based IT, network, and security operations powered by intelligent AI agents. Automate incident detection, monitoring, threat analysis, ticket resolution, and remediation workflows—enabling faster response times, improved service efficiency, and significant operational cost savings.

FRAUD DETECTION & RISK INTELLIGENCE

AI-powered detection and prevention of vendor fraud, claims fraud, and student fraud through intelligent anomaly detection, suspicious pattern identification, risk scoring, and automated alerts.

PROCUREMENT INTELLIGENCE

Streamline procurement processes with AI agents for solicitation analysis, vendor evaluation, compliance checks, and purchasing workflows.

POLICY & REGULATORY INTELLIGENCE

Simplify policy research, regulatory analysis, compliance reviews, and legislative monitoring through AI-powered assistants.

CONTACT CENTER AI

Improve customer service with real-time agent assistance, call analytics, automated summaries, and intelligent knowledge recommendations.

AI GOVERNANCE & COMPLIANCE

Support responsible AI adoption with risk assessments, governance frameworks, audit readiness, compliance monitoring, and reporting.

THREAT INTELLIGENCE ASSISTANT

Accelerate security analysis through AI-assisted threat correlation, incident insights, vulnerability intelligence, and actionable recommendations.
